MADISON CAMERON Youth Specialist

Madison was born and raised in Lethbridge, Alberta. She is the Youth Specialist at the Center for Trauma Informed Practices as. She is a former university athlete who spent her college basketball career playing in Michigan and Georgia. Madison has experience as an Educational Assistant, Crisis Intervention Worker, Community Support Leader, and has also spent time collaborating with youth organizations across Western Canada and the United States.

Madison has developed a series of comprehensive presentations for professionals, parents, and caregivers focused on the mental, emotional, and behavioural aspects that youth are facing due to the impact of Social Media use. This work was inspired by Madison's personal exposure to Social Media growing up as well as the many experiences she has had supporting children and youth as they face their own difficulties through Social Media engagement. Madison also offers youth presentations with a message of "Staying True to Yourself" in the midst of Social Media Influences.

WERE NOT SO DIFFERENT AFTER ALL

This presentation is developed for parents and caregivers to help give them a better understanding of how kids use and perceive Social Media. In this presentation parents and caregivers will gain insight into apps that youth are using that adults may not be aware of as well as some of the ways Social Media can change the way youth perceive themselves and the world around them. It will also highlight that the differences in the human experience between youth and their parents/caregivers is not as great as what many believe. The wants and needs of children and their parents/caregivers (when they were children) have not changed. It is the adult perspective and thoughtful strategies that need to change in order to strengthen connections with those lost in their handheld devices.
