- Homeroom and Option Change Requests
 - A great deal of thought, consideration and collaboration goes into developing class rosters each year. As such, we will **not** entertain conversations or requests for students to change homerooms. Variables considered when creating classes each year are:
 - Student needs.
 - Academic factors and student assessment data.
 - Available educational assistant support.
 - Gender ratios.
 - Student behaviors.
 - Number of students in classes.
 - Student relationships with other students/class chemistry.
 - Input from our counselling team.
 - Data from learning team meetings regarding your child.
 - Can we change my child's option classes?
 - **a.** Yes – Students chose their options in the spring, but we know things change and we are open to listening to them. If they did not choose options, they are assigned options.
 - **b.** We can change students' options, but it is important to follow the following guidelines, as we have over 500 students. Students must have the permission of their parents and can then request a change through their grade level administrator. Particularly at the start of the school year, changes often take time to accommodate. We will work through requests as quickly as possible, but please be patient as this transpires.
 - **c.** We ask that option change requests occur within the first 1-2 weeks of each term.
 - Option changes need to have the consent of student's parent/guardian and go through the grade level administrator.
